

# How to embed a YouTube video into your website:

In order to embed a video into another website or blog, please ask your website developer to do the following:

Click on "<Embed>" at the bottom of the video:

Copy the code in the field that appears (circled below) and ensure the check boxes below remain unchecked.

Paste the code in the provided field or area of the website in which you'd like to embed the video. Your website developer will need to paste this code into the HTML of your website.

```
<object width="480" height="385"><param name="movie" value="http://www.youtube.com/v/ZQWwY40sWSk&hl=en_US&fs=1"></param><param name="allowFullScreen" value="true"></param><param name="allowscriptaccess" value="always"></param><embed src="http://www.youtube.com/v/ZQWwY40sWSk&hl=en_US&fs=1" type="application/x-shockwave-flash" allowscriptaccess="always" allowfullscreen="true" width="480" height="385"></embed></object>
```

*HTML view of website*

The video will then appear on that page.
